

# TABLE OF CONTENTS

<b>Preface</b>	<i>page i</i>
<b>Table of contents</b>	<i>pages ii- v</i>
<b>Agenda</b>	<i>pages vi-ix</i>
<b>I</b> Utilization of Biopuppet Learning Media through the Implementation of Problem-Based Learning Strategy to Improve Student's Learning Interest and Understanding <b>Abdul Nurul Hadi</b> <b>INDONESIA</b>	<i>pages 1-6</i>
<b>II</b> Increasing Motivation in Teaching and Learning Chemistry on Hydrocarbons and Petroleum Topic Using CD Media Learning <b>Agus Wahyudin</b> <b>INDONESIA</b>	<i>pages 7-17</i>
<b>III</b> Computer-Based Instructional Media Design with Animation to Improve Students' Understanding of Chemical Bonds in the 10 <sup>th</sup> Grade of Senior High School <b>Andri Agustina</b> <b>INDONESIA</b>	<i>pages 18-21</i>
<b>IV</b> The Influence of Involving Martumba (Etnic Tapanuli Dance) to the Increasing of XI Grades Physical Science Students's Learning Outcomes in SMA Negeri 1 Matauli Pandan on the Subject Matter of Chemical Equilibrium <b>Deden Rachmawan</b> <b>INDONESIA</b>	<i>pages 22-29</i>
<b>V</b> Increasing Biology Study Result with Cooperative Learning Model Type Student Teams Achievement Division (Stad) with Strengthening Grade VII in Junior High School 1 Medan <b>Dewi sri Indriati Kusuma, S.Pd. M.Si</b> <b>INDONESIA</b>	<i>pages 30-40</i>

- VI**  
The Effectiveness of Using Experimental Tool “5 In 1” Made of Waste Plastic Bottles in Teaching about Atmospheric Phenomena *pages 41 - 46*  
**Mujahidin Agus**  
**INDONESIA**
- VII**  
Increasing Students’ Knowledge on the Correlation Between Land Use Change and Surface Run Off Coefficient through A Technology-Based Biology Learning *pages 47-50*  
**Ida Ayu Dewi Susiani**  
**INDONESIA**
- VIII**  
Efforts to Increase the Value of Learning about the Human Nervous System through the Medium of Robotic Motion Learning in the 9<sup>th</sup> Grade Class Students’ of Odd Semester, SMPN 1 Banda Aceh 2010-2011 *pages 51-55*  
**Rafni**  
**INDONESIA**
- IX**  
FOA Media for "Filtration-Osmosis-Aeration" and Local Wisdom "Brem" as Object Inquiry-Based Science-Preneur *pages 56-61*  
**Septa Krisdiyanto**  
**INDONESIA**
- X**  
Improving Students’ Activity and Ability on Physics Subject by Using Questioning Technique Presented in the Dynamic Group at the Second Year Students (Science Class) of SMA 1 Sijunjung *pages 62-65*  
**Ade Yusmar**  
**INDONESIA**
- XI**  
High School Biology Teacher’s Creativity in Developing Learning-Based on Local Biodiversity Commodities *pages 66-74*  
**Asep Agus Sulaeman, Liliyasi, Sri Redjeki, Dewi Sawitri**  
**INDONESIA**
- XII**  
Model Three Dimensional Visualization of Quantum Atomic Physics Lesson in Class XII Science High School *pages 75-80*  
**Desmalinda, M.Pd**  
**INDONESIA**

### **XIII**

The Use of Graphics Media as Optimization and Cooperative Learning Method Subject Review Procedures Name of the Substance and Simple Equation for Increasing Students' Motivation and Creativity in Class X-MIA Semester 2 SMAN 16 Banda Aceh Academic Year 2013/2014

*pages 81-85*

**Dra. Ermawati**

**INDONESIA**

### **XIV**

Development of ICT-Based Learning Biology Model in the Subject of Human Reproductive System with Multiple Intelligences Approach to Improve the Quality of Learning Process and Outcomes in Class XI Science SMA Negeri 1 Kalabahi

*pages 86-90*

**Syahriyati**

**INDONESIA**

### **XV**

Preparing the National Examination by Developing Students' Self-Competencies Test in Windows and Android Program

*pages 91-94*

**Sudar**

**INDONESIA**

### **XVI**

I-Context Learning-Based Scientific through Experimentation 'Aleksandra Denita Rades' to Improve Students Good and Friendly Environment

*pages 95-99*

**Suwarsono**

**INDONESIA**

### **XVII**

Quantum Learning Model Application Type VAK (Visual Auditory Kinesthetic) Results to Improve Student Learning Class XI SMA 4 Banda Aceh Hydrolysis In Salt Content

*pages 100-107*

**Sitti Hasnidar**

**INDONESIA**

### **XVIII**

Rolling Circle Transcription of DNA: Regarding Genetic Material Subject with the Solving Problems Creative Learning Models and Reinforcement Focused-Inquiry-Curiosity Process at Secondary State School of Dolopo

*pages 108-112*

**Priya Santosa**

**INDONESIA**

### **XIX**

Inquiry Science Learning through Writing Reflective Journal

*pages 113-116*

**Muhammad Hafizuddin Bin Abdullah Tong**

**BRUNEI**

- XX**  
The Influential Factors on the Rate of A Chemical Reaction *pages 117-120*  
**Meas Vandy**  
**CAMBODIA**
- XXI**  
Role Play and Analogy – An Innovation in Teaching and Learning Process *pages 121-129*  
**Khatijah bt. Abd Rahman**  
**MALAYSIA**
- XXII**  
An Investigation of the Influence of Gender and Learning Style on Student's Science Achievement *pages 130-135*  
**Zin zin Nyein**  
**MYANMAR**
- XXIII**  
Integrated Science Learning through Project Based Learning in Sekolah Indonesia Singapura *pages 136-140*  
**Fajar Krisna Caturangga, M.SI**  
**SINGAPORE**
- XXIV**  
Teachers' Questioning Techniques and Their Potential in Heightening Pupils' Inquiry *pages 141-147*  
**Siti Omairah bte Omar**  
**SINGAPORE**
- XXV**  
Science Project-Based Learning Focus on Sufficiency Economy and Community Enterprise for Enhancing The Quality of Life of Thai Local People *pages 148-153*  
**Sitthichai Yangthisan**  
**THAILAND**
- XXVI**  
Effectiveness of Chem-Connect Project in Managing Large Classes in Chemistry *pages 154-162*  
**Ronaldo C. Reyes**  
**PHILIPPINES**
